Adoption Resolution

RESOLUTION FY2012-1

VALDOSTA-LOWNDES METROPOLITAN PLANNING ORGANIZATION POLICY COMMITTEE

Resolution to ADOPT the FY2012-2015 Transportation Improvement Program

WHEREAS, in accordance with the U.S. Bureau of the Census officially designated Urbanized Area Boundaries established May 1, 2002; and

WHEREAS, the Southern Georgia Regional Commission (SGRC) has been designated by the Governor of Georgia as the Metropolitan Planning Organization (MPO) for the Valdosta-Lowndes Urbanized Area in accordance with Federal requirements of Title 23, Section 134 of the United States Code to have a Cooperative, Comprehensive and Continuous transportation planning process; and

WHEREAS, the MPO will conduct federally-required transportation planning activities that will improve the transportation system and help coordinate the area's future grow1h within the area bounded, at minimum, by the existing Urbanized Area plus the contiguous area expected to become urbanized within the next 20 years; and

WHEREAS, the MPO is required through the Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (SAFETEA-LU) to incorporate a four year horizon for the TIP, develop an annual listing of obligated projects (including bicycle and pedestrian facilities or investments), provide better visualization techniques regarding plans or projects to enhance the accessibility of plans by posting electronically or otherwise make available for public review as well as implementing new consultation processes and assessing potential environmental impacts of such plans to develop mitigation measures to minimize impacts (Section 450.322(f)7).

NOW, THEREFORE BE IT RESOLVED, that the Valdosta-Lowndes Metropolitan Planning. Organization's Policy Committee adopts the FY2012-2015 Transportation Improvement Program as required by Title 23 U.S.C. 134 Section 450.324 and Title 49 U.S.C. 5303.

CERTIFICATION

I hereby certify that the above is a true and correct copy of a Resolution adopted by the Valdosta-Lowndes Metropolitan Planning Organization Policy Committee at a meeting held on July 12, 2011.

John J. Fretti; Mayor, City of Valdosta Chair, Valdosta-Lownges Met/opolitan Planning Organization

Introduction

The Southern Georgia Regional Commission (SGRC) is the designated Metropolitan Planning Organization (MPO) for the Valdosta Urbanized Area. The MPO is mandated by the Federal Highway Act of 1962 (and subsequent re-authorizations) to perform the transportation planning activities within the urbanized area. The legislation ensures that a "continuing, cooperative and comprehensive" (referred as "3-C") planning process involving federal, state and local agencies, as well as citizens and other affected stakeholders.

The process involves collaboration among various governmental agencies and units of government and results in a consensus regarding the transportation plans for that urbanized area. Figure 1 displays the Valdosta Urbanized Area and Metropolitan Planning Area which includes all of Lowndes County and portions of Berrien and Lanier Counties.

VLMPO Organization

The Policy Committee is a forum for cooperative decision making by principal elected and appointed officials of the general purpose local governments and inter-modal transportation providers. The Policy Committee is also responsible for taking into consideration the recommendations from the CAC and the TCC when adopting plans or setting policy. The Policy Committee has final authority in the matters of policy and adoption of plans.

The Technical Coordinating Committee (TCC) membership includes staff from various federal, state, and local agencies and other associations who have a technical

knowledge of transportation or planning. TCC functions The to assure the involvement of all operation departments, advisory agencies, and multi-modal transportation providers involved with the planning process and subsequent implementation of plans. The TCC evaluates transportation plans and projects based on whether or not they are technically warranted and financially feasible.

The Citizens Advisory Committee (CAC) consists of volunteers who are interested in transportation issues. The CAC is responsible for keeping the Policy Committee informed of the community's and perspective shall also provide information to the community about transportation policies and issues. The CAC ensures that the values and interests of the communities of Lowndes County are taken into consideration in the planning process.

The Policy Committee, with input from the Citizens Advisory Committee and Technical Coordinating Committee, annually revises and adopts Transportation Improvement Program in order to comply with the federal regulations.

TIP Development Process

Metropolitan planning responsibilities are outlined in federal legislation passed in 2005 and entitled the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU). Following are key responsibilities and planning processes of the Valdosta-Lowndes Metropolitan Planning Organization (VLMPO) which is staffed by the designated MPO for the Valdosta Urbanized Area, the Southern Georgia Regional Commission.

The Transportation Improvement Program (TIP) represents the programming for funding and implementation of the near term years of projects in the adopted 2035 Transportation Plan for Valdosta and Lowndes County. The TIP is based on fiscal years, with July 1st being the first day of each fiscal year. For example, July 1, 2011 will be the first day of FY 2012. Under SAFETEA-LU requirements, the TIP must cover a minimum of four fiscal years. The Valdosta Area's TIP covers four fiscal years, FY's 2012 through 2015.

For a transportation project to receive federal transportation funds, it must be included in an approved TIP. All funding categories in the TIP must be financially constrained, meaning that the cost of all projects in each category must not exceed the amount of revenue available.

Pursuant to provisions of SAFETEA-LU, VLMPO prepares a TIP at least every four years in order for federal agencies to authorize the use of federal transportation funds in the Region. Traditionally, VLMPO has exceeded this requirement by updating the region's TIP annually.

The date a TIP becomes effective is when the Governor or his designee approves it, after the MPO Policy Committee has received public comment and approved the document as well.

Project Selection

VLMPO works with planning partners including the Georgia Department of Transportation, the City of Valdosta, and Lowndes County, other stakeholder groups and the general public to prioritize federally funded highway, transit, bicycle and pedestrian facilities, and other transportation projects for inclusion in the TIP.

Because VLMPO is small urbanized area, with a population under 200,000 the MPO works in a more close relationship with GDOT to develop projects for inclusion in the Regional Transportation Plan and in the TIP.

Annually VLMPO receives from GDOT expected revenue forecasts for the time period of the TIP. Because the VLMPO TIP must be fiscally constrained project expenditures identified in the program cannot annually exceed the projected revenues.

Currently locally developed, and federal-aid eligible projects are selected for inclusion in the TIP, primarily by the priority in which they are listed in the 2035 Transportation Plan.

Congressional District Balancing

The Official Code of Georgia (OCGA 32-5-30(a)) requires that most federal and state transportation funds spent in Georgia be spent evenly among the state's congressional districts. The VLMPO region is split between the 1st and 2nd congressional districts. Once the TIP financial tables have been created, GDOT ensures all funding is spread equally. If there are discrepancies, they are generally handled by redistributing funds among projects across multiple congressional districts.

Public Involvement Process

VLMPO's Public Participation Plan outlines the process through which stakeholders and public input and comment are solicited for. During the development of this TIP the draft document and project listing was presented to the Technical and Policy Committees of the MPO for initial review at a meeting on June 14, 2011.

A notice of the public comment period was mailed to the VLMPO mailing list of over 300 local and regional stakeholder groups and interested parties. This notice is included in the appendix.

The document was then shared with the public for a 24-day public comment period from June 15 through July 8, 2011. During the public comment period the draft TIP was made available in hardcopy to the public at all libraries in Lowndes, Berrien, and Lanier Counties, at all local government administration offices in Lowndes, Berrien and Lanier Counties, and at the Southern Georgia Regional Commission office. A digital copy was also made available on the SGRC website.

During the public comment period a Public Open House was held on June 28, 2011 at the SGRC office from 10:00 AM to 7:00PM.

VLMPO consulted with other Federal, State and local agencies responsible for land use

development and management, natural environmental resources, protection, conservation, and historic preservation concerning the projects in the plan. A listing of these agencies contacted is provided in the appendix. In order to better identify TIP projects and potential areas of concern for groups, these stakeholder а special Geographic Information Systems (GIS) website that displayed TIP projects over layers such as: environmentally sensitive lands, historic districts, land uses, and other natural, social and economic geographic layers.

Written comments received during the public comment period from stakeholders and the general public alike have been shared and responded to in the appendix.

TIP Amendment Process

The Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) issued the Final Rule to revise the Statewide and Metropolitan Transportation Planning regulations incorporating changes from the Accountable. Flexible. Safe. Efficient Transportation Equity Act: A Legacy for Users on February 14, 2007 with an effective date of March 16, 2007. The regulations clearly define revised modifications administrative and amendments as actions to update plans and programs. 23 Code of Federal Regulations (CFR) Part 450.104 defines administrative modifications and amendments as follows:

 Administrative modification means a minor revision to a, Transportation Improvement Program (TIP), that includes minor changes to project/project phase costs, minor changes to funding sources of previously-included projects, and minor changes to project/project phase initiation dates.

Administrative Modification is a revision that does not require public review and comment, redomonstration of fiscal constraint, or a conformity determination (in nonattainment and maintenance areas).

Amendment means a revision to a TIP that involves a major change to a project included in a TIP, including the addition or deletion of a project or major change in project cost, project/project phase initiation dates, or a major change in design concept or design scope (e.g., changing project termini or the number of through traffic lanes). Changes to projects that are included for only illustrative purposes do not require an amendment. An amendment is a revision that requires public review and comment, redomonstration of fiscal constraint, or a conformity metropolitan (for determination transportation plans and TIPs involving "non-exempt" projects in nonattainment and maintenance areas).

The following procedures have been developed for processing administrative modifications and amendments to the TIP Processes described below detail procedures that are to be used to update an existing approved TIP and associated plan, if applicable. A key element of the amendment process is to assure that funding balances are maintained.

TIP Administrative Modifications

The following actions are eligible as Administrative Modifications to the TIP:

A. Revise a project description without changing the project scope, conflicting with the environmental document or changing the conformity finding in nonattainment and maintenance areas (less than 10% change in project termini). This change would not alter the original project intent.

B. Splitting or combining projects.

C. Federal funding category change.

D. Minor changes (less than 20%) in expenditures for transit projects.

E. Roadway project phases may have a cost increase less than \$2,000,000 or 20% of the amount to be authorized. The 20% scenario amount may not exceed \$10,000,000.

F. Shifting projects within the 4-year TIP as long as the subsequent annual draft TIP was submitted prior to September 30.

G. Projects may be added or deleted in lump sum banks as long as they are consistent with category definitions.

An administrative modification can be processed in accordance with these procedures provided that:

1. It does not affect the air quality conformity determination.

2. It does not impact financial constraint.

3. It does not require public review and comment.

The administrative modification process consists of a letter written by the VLMPO staff to GDOT, FHWA and FTA. The administrative modification will also be presented for informational purposes at the next regularly scheduled VLMPO Policy Committee meeting.

TIP Amendments

The following actions are eligible as Amendments to the TIP:

A. Addition or deletion of a project.

B. Addition or deletion of a phase of a project.

C. Roadway and transit project phases that increase in cost over the thresholds described in the Administrative Modification section.

D. Addition of an annual TIP (requires a minimum 15-day public comment period).

E. Major change to scope of work of an existing project. A major change would be any change that alters the original intent i.e. a change in the number of through lanes, a change in termini of more than 10 percent.

F. Shifting projects within the 4-year TIP which require redemonstration of fiscal constraint or when the subsequent annual draft TIP was not submitted prior to September 30. (See Administrative Modification item F.)

Amendments to the TIP will be developed in accordance with the provisions of 23 CFR Part 450. This requires public review and comment and responses to all comments, either individually or in summary form. For amendments in the VLMPO Metropolitan Planning Area, the public review process will require a 15-day public comment period, followed by a vote taken at a meeting of the VLMPO Policy Committee. The VLMPO will assure that the amendment process and the public involvement procedures have been followed.

Cost changes made to the second, third and fourth years of the TIP will be balanced during the TIP yearly update process. All amendments should be approved by FHWA and/or FTA.

TIP Funding

Highway funding is typically authorized in a multiyear transportation authorization act that establishes the maximum level of federal transportation funding per fiscal year. The bill that authorized current transportation spending levels is called the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU). The bill covers Federal FY 2005-2009, and has been extended through September 30, 2011.

Once the authorization of a Federal transportation bill takes place, the USDOT apportions funding among the states based on federal formulas set in the law. The apportionment for each state is estimated for each federal fiscal year, which runs from October 1st to September 30th. State DOTs and MPOs use this figure to create state and regional plans and programs. The amount of apportionment actually available to be spent is called obligation authority. Obligation authority is generally less than the state's apportionment identified in SAFETEA-LU. Each year, anv unused obligation authority can be carried forward to the next fiscal year, although in the past several years, Georgia has spent all apportioned funds in the designated year.

Each fall, the Georgia Department of Transportation receives the amount of federal funding available to the state of Georgia. GDOT then allocates funds to each of the regions, counties and cities within the state using the appropriate plans such as the TIP, laws such as congressional balancing, and formulas. The TIP is divided into different sections identified as Tier 1, Tier 2, Illustrative Local Lump Sum and Transit. Tier 1 is the group of projects covering the years of the TIP, (Example: FY12-15). This is the listing of highway projects that make up the TIP. The Tier 2 list are those projects that are just beyond the years of the TIP and where money has been allocated already in future years (currently the Tier 2 list is blank as no money has been allocated at this time). The Illustrative Local projects are those projects contained in the 2035 that are Transportation Plan that are 100% locally funded. The Lump Sum and Transit project lists are described later.

Highway Programs

Under SAFETEA-LU, the federal aid highway program includes the following programs available to be utilized in the VLMPO Metropolitan Planning Area (other fund categories which are not available to VLMPO are not listed here):

• Interstate Maintenance (IM) – The program provides funding for resurfacing, restoring, rehabilitating and reconstructing (4R) most routes on the Interstate System.

National Highway System (NHS) -• The program provides funding for improvements to rural and urban roads that are part of the NHS, including the System designated Interstate and major intermodal connections to terminals. Under certain circumstances, NHS funds may also be used to fund transit improvements in NHS corridors.

• Surface Transportation Program (STP) – The program provides flexible funding that may be used by States and localities for projects on any Federal-aid highway, including the NHS, bridge projects on any public road, transit capital projects, and intracity and intercity bus terminals and facilities.

• **Highway Bridge Program (BRG)** -The program provides funding to enable States to improve the condition of their highway bridges through replacement, rehabilitation, and systematic preventive maintenance.

• Highway Safety Improvement Program (HSIP) - The newly authorized Federal-aid funding program began in FY 2006 to achieve a significant reduction in traffic fatalities and serious injuries on all public roads. A state must have a Strategic Highway Safety Plan (SHSP) in place in order to obligate HSIP funds.

A table describing the funding code categories and match requirements for all highway programs (including Lump Sum) is available in the appendix.

Lump Sum Programs

Each year the Georgia Department of Transportation (GDOT) receives its share of federal funds for highway improvements from USDOT, performs congressional district balancing, and sub allocates the funds to the Metropolitan Planning Organizations (MPO) in the state. The MPO then uses the projected program funds in developing the Transportation Improvement Program. For the MPO planning area, the annual amount includes the actual amounts estimated by GDOT to be available for spending authority.

Of the total expected available funding, a portion is set aside for eleven groups of projects that do not affect the capacity of

the roadway. This Lump Sum Program is intended to give GDOT and MPOs flexibility to address projects of an immediate need while fulfilling the requirements of the STIP Transportation (State Improvement Program) and TIP. Funds are set up in lump sum banks to undertake projects that are developed after the STIP is approved. These lump sum Banks, are listed in a number of funding types for each year for GDOT's convenience in managing and accounting for the funding. These Lump Sum banks are shown in the TIP/STIP with the words "Lump Sum" in the project description and contain an amount of funding for each year. Funds are drawn from these lump sums during the year and individual projects are programmed. The individual projects may include work at one or several locations for letting and accounting purposes. Listed below are these eleven groups and information about them. Except for groups for preliminary engineering and rights of way protective buying, the total available funds are shown as construction for easy accounting but preliminary engineering and rights-of-way may be drawn from this amount when needed in that category.

Individual projects are programmed and funds drawn from the Lump Sum Bank at the time these funds are needed for Preliminary Engineering, Rights of Way and Construction. These projects may be funded in the current year or one of the other TIP/STIP years. Funds for these projects are not counted until authorization is requested for the funds. At that time the actual cost is deducted from the balance in the Lump Sum Bank.

To provide the readers of the TIP/STIP with as much information as possible, individual projects to be funded from the Lump Sum Bank in the future may be shown in the TIP/STIP with a program year of LUMP and a preliminary estimated cost.

Group 1: Maintenance

Criteria: existing system maintenance only

This group has six funding/work types: two are for bridge painting/maintenance and four the other are for roadwav maintenance. Major types of work undertaken are: resurfacing, pavement rehabilitation, median work, impact attentuators, signing, fencing, pavement markings, landscaping, rest areas, walls, guardrail and shoulder work. Also included is preliminary engineering necessary to prepare plans and rights-of-way needed for work such as landslide repair, sewer hookups and erosion control.

Group 2: Safety

Criteria: work qualifying for the High Hazard Safety Program and other safety projects

This group includes the following work types: signal installation/upgrades, guardrail installation, sign installation, railroad protection devices, operational improvements, railroad crossing hazard elimination, roadway hazard elimination and special safety studies and programs.

Group 3: Preliminary Engineering

Criteria: planning, management systems and consultant design services

This group has two funding/work types: planning/management systems and consultant design services.

Group 4: Traffic and Revenue/Design-Build/Special Studies

Criteria: These studies are to determine how much traffic and how much revenue a toll facility (such as a managed lane) could generate-in order to guide project development/financing. Special studies, related to transportation, would also be included in this group.

This group is a single item.

Group 5: Roadway/Interchange Lighting Criteria: lighting

This group is a single item.

Group 6: Rights of Way - Protective Buying and Hardship Acquisitions

Criteria: purchase of parcel(s) of rights of way (ROW) for future projects that are in jeopardy of development and for hardship acquisition. Qualifying projects are those that have preliminary engineering (PE) underway or have a PE, ROW or construction phase in the STIP. For counties that are not in conformance for air quality the only qualifying projects are those that have a ROW phase in the STIP.

This group is a single item.

Group 7: Transportation Enhancement

Criteria: projects qualifying for the Transportation Enhancement program (TEA). TEA projects shown in the STIP will be funded on a first come first served basis. When a project is funded it is drawn down from the lump sum. When all funds are gone, no other projects can be funded until the next fiscal year, which begins on July 1.

This group is a single item.

Group 8: Livable Centers Initiative

Criteria: Applies to the Atlanta MPO only, no funding included in VLMPO TIP.

Group 9: Safe Routes to Schools

Criteria: To enable and encourage children, including those with disabilities, to walk and bicycle to school; to make walking and bicycling to school safe and more appealing; and to facilitate the planning, development and implementation of projects that will improve safety, and reduce traffic, fuel consumption, and air pollution in the vicinity of schools.

This group has two items: Infrastructure and non-infrastructure.

Group 10: High Risk Rural Roads

Criteria: States are required to identify these roadways (and expend the HRRR funds) according to the following definition:

Any roadway functionally classified as a rural major collector or a rural local road and

- A. On which the accident rate for fatalities and incapacitating injuries exceeds the statewide average for those functional classes of roadway; or
- B. That will likely have increases in traffic volume that are like to create an accident rate for fatalities and incapacitating injuries that exceeds the statewide average for those functional classes of roadway.

Group 11: Regional Traffic Signal Optimization

Criteria: Applies to maintenance and operation of traffic control devices statewide. Candidate projects include:

A. Regional Traffic Operations Concepts

- B. Micro-Regional Traffic Operations
- C. Traffic Control Maintenance Contracts
- D. Signal Timing
- E. Identification of minor operations improvement projects to be submitted for Operational Projects under another Lump Sum category.

Projects will:

- A. Have to support the Regional or Statewide Traffic Signal Concept of Operations
- B. Focus on operating and maintained the components of traffic control systems

Local or quasi-governmental agencies may be contract with at the project level.

Transit Programs

Under SAFETEA-LU, the federal aid highway program includes the following programs available to be utilized in the VLMPO Metropolitan Planning Area (other fund categories which are not available to VLMPO are not listed here):

Section 5307 Urban Formula Program

This program (49 U.S.C. 5307) makes Federal resources available to urbanized areas and to Governors for transit capital and operating assistance in urbanized areas and for transportation related planning. An urbanized area is an incorporated area with a population of 50,000 or more that is designated as such by the U.S. Department of Commerce, Bureau of the Census.

Eligible purposes include planning, engineering design and evaluation of transit projects and other technical transportationrelated studies; capital investments in bus

bus-related activities and such as replacement of buses, overhaul of buses, rebuilding of buses, crime prevention and security equipment and construction of maintenance and passenger facilities; and capital investments in new and existing fixed guideway systems including rolling stock, overhaul and rebuilding of vehicles, track, signals, communications, and computer hardware and software. All preventive maintenance and some Americans with Disabilities Act complementary paratransit service costs are considered capital costs.

Funding is apportioned on the basis of legislative formulas. For areas of 50,000 to 199,999 in population, the formula is based on population and population density. For areas with populations of 200,000 and more, the formula is based on a combination of bus revenue vehicle miles, bus passenger miles, fixed guideway revenue vehicle miles, and fixed guideway route miles as well as population and population density.

Currently this funding is not being utilized in the Valdosta Urbanized Area; however a proposal for a public transit system is in place and would use this funding if it is implemented.

Section 5310 Transportation for Elderly Persons and Persons with Disabilities

This program (49 U.S.C. 5310) provides formula funding to States for the purpose of assisting private nonprofit groups in meeting the transportation needs of the elderly and persons with disabilities when the transportation service provided is unavailable, insufficient, or inappropriate to meeting these needs. Funds are apportioned based on each State's share of population for these groups of people.

Funds are obligated based on the annual program of projects included in a statewide grant application. The State agency ensures that local applicants and project activities are eligible and in compliance with Federal requirements, that private not-for-profit providers transportation have an opportunity to participate as feasible, and that the program provides for as much of coordination federally assisted transportation services, assisted by other Federal sources. Once FTA approves the application, funds are available for state administration of its program and for allocation to individual subrecipients within the state.

Section 5311 Rural and Small Urban Areas

This program (49 U.S.C. 5311) provides formula funding to states for the purpose of supporting public transportation in areas of less than 50,000 populations. Eighty percent of the statutory formula is based on the nonurbanized population of the States. Twenty percent of the formula is based on land area. No State may receive more than 5 percent of the amount apportioned for land area. In addition, FTA adds amounts apportioned based on nonurbanized population according to the growing States formula factors of 49 U.S.C. 5340 to the amounts apportioned to the States under the Section 5311 program.

Funds may be used for capital, operating, and administrative assistance to state agencies, local public bodies, Indian tribes, and nonprofit organizations, and operators of public transportation services. The state must use 15 percent of its annual apportionment to support intercity bus service, unless the Governor certifies, after consultation with affected intercity bus providers that these needs of the state are adequately met. Projects to meet the requirements of the Americans with Disabilities Act, the Clean Air Act, or bicycle access projects, may be funded at 90 percent Federal match. The maximum FTA share for operating assistance is 50 percent of the net operating costs.

Funding is apportioned by a statutory formula that is based on the latest U.S. Census figures of areas with a population less than 50,000. The amount that the state may use for state administration, planning, and technical assistance activities is limited to 15 percent of the annual apportionment. States must spend 15 percent of the apportionment to support rural intercity bus service unless the Governor certifies, after consultation with affected intercity bus providers that the intercity bus needs of the state are adequately met.

Section 5316 Job Access and Reverse Commute (JARC)

The Job Access and Reverse Commute (JARC) program was established to address the unique transportation challenges faced by welfare recipients and low-income persons seeking to obtain and maintain employment. Many new entry-level jobs are located in suburban areas, and low-income individuals have difficulty accessing these jobs from their inner city, urban, or rural neighborhoods. In addition, many entry level-jobs require working late at night or on weekends when conventional transit services are either reduced or non-existent. Finally, many employment related-trips are complex and involve multiple destinations including reaching childcare facilities or other services.

The JARC program funds transportation projects designed to help low-income individuals access to employment and related activities where existing transit is unavailable, inappropriate, or insufficient. The JARC program also funds reverse commute transit services available to the general public.

Section 5317 New Freedom Program

The New Freedom formula grant program aims to provide additional tools to overcome existing barriers facing Americans with disabilities seeking integration into the work force and full participation in society. Lack of adequate transportation is a primary barrier to work for individuals with disabilities. The 2000 Census showed that only 60 percent of people between the ages of 16 and 64 with disabilities are employed. The New Freedom formula grant program seeks to reduce barriers to transportation services and expand the transportation mobility options available to people with disabilities beyond the requirements of the Americans with Disabilities Act (ADA) of 1990.

A table describing the match requirements for all transit programs is available in the appendix.

Public Notice of Comment Period

Public Notice of a Public Comment and Review Period and Public Open House

In accordance with requirements set forth in 23 CFR 450 and other laws and regulations; the Valdosta-Lowndes Metropolitan Planning Organization (VLMPO) has developed the Draft Transportation Improvement Program for Fiscal Years 2012-2015 (TIP) for the Valdosta Metropolitan Planning Area which includes all of Lowndes County and portions of Berrien and Lanier Counties.

This TIP is available for public review and comment from June 15, 2011 to July 8, 2011 at the Southern Georgia Regional Commission, 327 W Savannah Ave.; all public libraries in Berrien, Lanier and Lowndes Counties; on the VLMPO website (<u>www.sgrc.us/transportation</u>); all county government administration offices in Berrien, Lanier and Lowndes Counties; and all city government administration offices in Lowndes County.

On Tuesday, June 28, 2011 the VLMPO will host a Public Open House at the office of the Southern Georgia Regional Commission (327 W Savannah Ave.) from 10:00 am to 7:00 pm to allow members of the public to ask questions and speak to VLMPO staff regarding the TIP. Accessibility aids (interpreter, large print, etc.) will be made available at the open house if a written request is made at least one week prior to the event. Si usted necesita la ayuda de un traductor del idioma español, por favor comuníquese con la SGRC al teléfono 229-333-5277, cuando menos 1 semana antes de la junta.

Comments are being accepted by email at <u>chull@sgrc.us</u>, by fax at 229-333-5312, or by mailing them to VLMPO, 327 W Savannah Ave., Valdosta, GA 31601.

For more information please call Corey Hull, MPO Coordinator at 229-333-5277.

Public Comments Received

Comment #1: Name: Lesa Walker, GDOT Date: June 30, 2011

Comment and Response: On all project sheets ensure that that the funding source is correct.

Staff corrected/updated the funding source as appropriate on all project sheets.

On all project sheets change the name of the project and Congressional District assignment to be consistent with GDOT.

Staff added the GDOT name description to each project where appropriate, however to give better information to the public the name description was not changed. The VLMPO staff updated incorrect Congressional District designations on the I-75 at Exit 2 project, however all other projects were not changed to reflect the true designation that those projects are split by the Congressional District line.

On the I-75 projects at Exit 18, Exit 11 and Exit 2, ensure that the correct number of future lanes is changed to six.

On the Patterson at Roosevelt project sheet, remove the old PI# since this project is no longer a GDOT project.

Staff made all of the above corrections.

On the Hwy 84 Grade Separation project update the cost of the Utility Relocation to be \$875,454 (from \$121,264) funded with 100% local funds.

After discussion with the Policy Committee members it was determined to not include this updated dollar amount until further information could be provided explaining why there was such a large increase.

CERTIFICATION OF THE

VALDOSTA-LOWNDES METROPOLITAN PLANNING ORGANIZATION

Be it known to all, the below signees do hereby endorse and certify the Metropolitan Planning Process for the Valdosta-Lowndes Metropolitan Planning Organization, and further certify that the Metropolitan Planning Process is being conducted in accordance with all applicable requirements of.

- I. 23 U.S.C. 134, 49 U.S.C. 5305, and this subpart
 - Agreements are in place to address responsibilities of each MPO for its share of the overall Metropolitan Planning Area (MPA), where multiple Metropolitan Planning Organizations share geographic portions of a Transportation Management Area (TMA).
 - o All major modes of transportation are members of the MPO
 - Any changes to the MPA boundaries were reflected in the Policy Board representation.
 - Agreements or memorandums are signed and in place for identification of planning responsibilities among the MPO, GDOT, public transit operator(s), air quality agency(ies), or other agencies involved in the planning process.
 - Roles and responsibilities are defined for the development of the Long Range Transportation Plan (LRTP), Transportation Improvement Program (TIP), Unified Planning Work Program (UPWP) and other related planning documents.

UPWP

- The UPWP documents in detail the activities to be performed with Title 23 and the Federal Transit Act.
- The UPWP activities are developed, selected and prioritized with input from the State and public transit agency(ies).
- o The UPWP provides funding for the professional development of MPO staff.
- The final UPWP is submitted in a timely manner to GDOT with authorization occurring by before the MPO's fiscal year begins.
- Amendments to the UPWP are developed and processed in accordance with procedures outlined in the MPO's Participation Plan.
- Planning activities and status reports are submitted quarterly by the MPO to GDOT.

LRTP

- o The LRTP incorporates a minimum 20-year planning horizon.
- The LRTP identifies both long-range and short-range strategies and actions leading to the development of an intermodal transportation system.
- o The LRTP is fiscally constrained.
- The development of the LRTP and the TIP are coordinated with other providers of transportation (e.g. regional airports, maritime port operators)
- All of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) planning factors were considered in the planning process.

- The LRTP includes a discussion of types of potential environmental mitigation activities and potential areas to carry out these activities in consultation with federal, state and tribal land management and regulatory agencies.
- The Congestion Management Process (CMP) was developed as part of the LRTP in TMA's.
- The MPO approves the LRTP in a timely manner without entering into a planning lapse.
- Amendments to the LRTP/STIP/TIP follow the approved Amendment Process.
- The MPO approves LRTP amendments in accordance with procedures outlined in the MPO's Participation Plan.
- The transit authority's planning process is coordinated with the MPO's planning process.
- In non-attainment and maintenance areas the MPO, as well as FHWA and FTA, must make a conformity determination on any updated or amended LRTP in accordance with 40 CFR Part 93.

TIP

- The TIP is updates at least every 4 years, on a schedule compatible with STIP development.
- o Each project included in the TIP is consistent with the LRTP.
- o The MPO, GDOT and the transit operator collaborate on the development of the TIP.
- The TIP contains all projects to be funded under Title 23 U.S.C. and Title 49 U.S.C. Chapter 53.
- The TIP is financially constrained by year and revenue estimates reflect reasonable assumptions.
- o The MPO TIP is included in the STIP by reference, without modification.
- o Amendments to the LRTP/STIP/TIP follow the approved Amendment Process.
- In non-attainment and maintenance areas, the MPO as well as the FHWA and FTA must make a conformity determination on any updated or amended TIP in accordance with 40 CFR Part 93.

Participation Plan

- A 45-day comment period was provided before the Participation Plan process was adopted/revised.
- Transportation plans, programs and projects provide timely information about transportation issues and processes to citizens and others who may be affected.
- Opportunities are provided for participation for local, State, and federal environmental resource and permit agencies where appropriate.
- The public involvement process demonstrates explicit consideration and responsiveness to public input received during the planning and program development process.
- The transportation planning process identifies and addresses the needs of those traditionally underserved, including low-income and minority households.
- The disposition of comments and changes in the final LRTP and /or TIP are documented and reported when significant comments are submitted.
- Additional time is provided if the "final" document is significantly different from the draft originally made for public review.

- The MPO undertakes a periodic review of the public involvement process to determine if the process is efficient and provides full an open access for all. *CMP (applies to TMAs)*
- In TMA's, the planning process includes the development of a CMP that provides for effective management of new and existing transportation facilities through the use of travel demand reduction and operational management strategies, thus meeting the
 - requirements of 23 CFR Part 500.
- o The CMP is fully integrated into the overall metropolitan planning process.
- The CMP has established performance measures.
- o The MPO has a process for periodically evaluating the effectiveness of the CMP.
- The CMP is updated on a periodic basis to reevaluate network strategies and projects.
- The CMP work activities are included in the UPWP.

List of Obligated Projects

- The MPO provides a listing for all projects for which funds are obligated each year, including bicycle and pedestrian facilities.
- The annual listing is made available to the public via the TIP or the LRTP.
- II. In non-attainment and maintenance areas, sections 174 and 176(c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506(c) and (d)) and 40 CFR part 93
 - The MPO's UPWP incorporates all of the metropolitan transportation-related air quality planning activities addressing air quality goals, including those not funded by FHWA/FTA.
 - Agreements exist to outline the process for cooperative planning within full nonattainment/maintenance areas that are not designated by the MPO planning area.
 - The MPO coordinates the development of the LRTP with SIP development and the development of Transportation Control Measures (TCM) if applicable.
 - The LRTP includes design concept and scope descriptions of all existing and proposed transportation facilities in sufficient detail, regardless of funding source, to permit conformity determinations.
 - The MPO's TIP includes all proposed federally and non-federally funded regionally significant transportation projects, including intermodal facilities.
 - If applicable, the MPO ensures priority programming and expeditious implementation of TCMs from the STIP.

III. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21

- The MPO has adopted goals, policies, approaches and measurements to address Title VI and related requirements.
- The public involvement process is consistent with Title VI of the Civil Rights Act of 1964 and the Title VI assurance execution by the State.
- The MPO has processes, procedures, guidelines, and/or policies that address Title VI, ADA, and DBE.
- o The MPO has a documented policy on how Title VI complaints will be handled.
- The MPO has a demographic profile of the metropolitan planning area that includes identification of the locations of protected populations.

- As appropriate, the planning process identifies/considers/addresses the needs of protected/traditionally underserved populations (low-income/minority as defined by the U.S. Census Bureau).
- IV. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment of business opportunity
 - The MPO adheres to all requirements prohibiting discrimination against a person under, a project, program, or activity receiving financial assistance under because of race, color, creed, national origin, sex, or age.
 - V. Section 1101(b) of the SAFETEA-LU (Pub. L. 109-59) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects
 - The GDOT establishes overall goals for the percentage of work to be performed by DBE's based on the projections of the number and types of federal-aid highway contracts to be awarded and the number and types of DBE's likely to be available to compete for the contracts.
 - VI. 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts
 - The MPO as required by Title VII of the Civil Rights Act of 1964, does not discriminate on employment opportunities based on race, color, religion, sex, or national origin;
 - VII. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, and 38
 - O The MPO as required by 49 U.S.C. 5332 prohibits discrimination on the basis of race, color, creed, national origin, sex, or age, and prohibits discrimination in employment or business opportunity, otherwise known as Title VI of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000d, and U.S. DOT regulations, "Nondiscrimination in Federally-Assisted Programs of the Department of Transportation—Effectuation of Title VI of the Civil Rights Act," 49 CFR part 21 at 21.7.
 - VIII. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance
 - The MPO has identified strategies and services to meet the needs of older persons' needs for transportation planning and programming.

- IX. Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender
 - The MPO adheres to the Act on Equality between women and men and prohibits both direct and indirect discrimination based on gender.
 - The MPO adheres to the Equal Pay Act of 1963 (EPA), which protects men and women who perform substantially equal work in the same establishment from sexbased wage discrimination;
- X. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.
 - The MPO adheres to Title I and Title V of the Americans with Disabilities Act of 1990 (ADA), which prohibits employment discrimination against qualified individuals with disabilities in the private sector, and in state and local governments

Valdosta-Lowndes Metropolitan Planning Organization FY2012-2015 Transportation Improvement Program Amendment Public Comment Period Announcement

In accordance with requirements set forth in 23 CFR 450 and other laws and regulations the Valdosta-Lowndes Metropolitan Planning Organization (VLMPO) has developed the FY2012-2015 Transportation Improvement Program (TIP) for the Valdosta Urbanized Area which includes all of Lowndes County and portions of Berrien and Lanier Counties. The Valdosta-Lowndes Metropolitan Planning Organization is soliciting public comment on the following amendment to its FY2012-2015 Transportation Improvement Program.

The following project is being added to the FY12-15 TIP from the FY11-14 TIP:

PI#	VLMPO#	Sponsor		Fund Code	Year	Phase	Description	Type of Work	Federal \$	State \$	Local \$	Total Phase \$	Total Project \$ (2035 LRTP)
New 0008437	L026	GDOT	STP	LY20S	2012	CST		Intersection Improvement	\$1.307.448	\$326,862	\$-	\$1,634,310	\$ 2,000,000

This TIP Amendment is available for public review and comment from August 26, 2011 to September 11, 2011 at the Southern Georgia Regional Commission, 327 W Savannah Ave.; all public libraries in Berrien, Lanier and Lowndes Counties; on the VLMPO website (www.sgrc.us/transportation); all county government administration offices in Berrien, Lanier and Lowndes Counties; and all city government administration offices in Lowndes County. Si usted necesita la ayuda de un traductor del idioma español, por favor comuníquese con la SGRC al teléfono 229-333-5277.

Comments are being accepted by email at chull@sgrc.us, by fax at 229-333-5312, or by mailing them to VLMPO, 327 W Savannah Ave., Valdosta, GA 31601. For more information please call Corey Hull, MPO Coordinator at 229-333-5277.

RE: VLMPO FY12-14 TIP Administrative Modification #1

Dear Ms. Walker:

Per the request of the Georgia Department of Transportation the following administrative modification has been made to the FY2012-2015 Transportation Improvement Program (TIP) for the Valdosta Urbanized Area. This administrative modification has been carried out in accordance with the guidelines set forth in this TIP. Please find attached an updated Financial Plan, Tier I Project List and Project Data Sheet.

P1#	VLMPO#	Spapsor	Fund Type		Year	Phase	Description	Type of Work	Federal \$	State \$	Local \$	Total Phase \$	Total Project \$ (2035 LRTP)
Old 0000762	G015	GDOT	STP	LY20S	2012	ROW	I-75 at Exit 22 and Exit 29	Interchange	\$14,399,136	\$3,599,784	\$ -	\$17,998,920	\$52,317,424
New 0000762	G015	GDOT	STP	LY20S	2013	ROW	I-75 at Exit 22 and Exit 29	Interchange	\$14,687,119	\$3,671,780	\$ -	\$18,358,898	\$52,317,424

Should you have any questions please feel free to contact me at chull@sgrc.us or 229-333-5277.
